Press Release

JMI to offer training in Artificial Intelligence and Machine Learning for a better future

The Department of Computer Engineering, Jamia Millia Islamia (JMI) will conduct a three-week Short Term Training Programme (STTP) on 'Artificial Intelligence and Machine Learning' in hybrid mode. The 50-hour duration STTP will start from 4th July to 22nd July, 2023. There will be theory classes of 20 hours duration and hands-on practical training for 30 hours. The programme will comprise of five modules, namely, (1) Introduction of AI & Python Basics (2) Applied Data Science with Python (3) Machine Learning Algorithms (4) Deep Learning for Computer Vision with Keras & Tensorflow and (5) Deep Learning for NLP with Keras & Tensorflow.

Experienced faculties from JMI and other reputed central/foreign universities, IITs, NIITs and IIITs as well as industry will be the resource person for the course.

All Diploma, UG, PG as well as Ph.D. with Maths backgrounds candidates are eligible for the course.

A total of 80 seats are available for the course out of which 30 students will be taken for offline classes on First Come First Served Basis (FSFS) and 50 students will be admitted online.

JMI is in the process of launching advanced courses dealing with smart technologies as the world needs to power human activities with Artificial Intelligence and Machine Learning.

Online registration link will be available on official website of the university www.jmi.ac.in from 10th June, 2023. One may also get additional information by calling 9999395201 and 9654774604
